

MICHIGAN COMMUNITY COLLEGE ASSOCIATION

[Burning Glass Technologies](#) is excited to have a consortium agreement with Michigan Community College Association which allows MCCA community colleges to purchase [Labor Insight](#)[™] and [Program Insight](#)[™] for a 12 month subscription at a discounted consortium rate.

Burning Glass tools deliver real-time job market analytics that empower [colleges and government workforce systems](#) to make data-driven decisions and support the following:

- Examine the needs of local and national demographics
- Clearly connect programs with real-world career outcomes for your graduates
- Spend less time compiling data
- Streamline academic planning for program launch to review or sunset
- Quickly create and download reports for leadership state agencies, and accreditors
- Address emerging skill gaps and industry credentials in demand specific to your region
- Increase employer corporate relationships and develop educational opportunities for their incumbent workforce
- Provide insight into new student market segments you are not yet serving that are well aligned to your existing program portfolio
