(2) Money included in the appropriations for community college operational support payments under section 201e for local strategic value shall be allocated to each community college that certifies to the state budget director, through a board of trustees resolution on or before October 15, 2021, that the college has met 4 out of 5 best practices listed in each category described in subsection (3). The resolution shall provide specifics as to how the community college meets each best practice measure within each category. One-third of funding available under the strategic value component shall be allocated to each category described in subsection (3). Amounts distributed under local strategic value shall be on a proportionate basis to each college's fiscal year 2019-2020 operations funding. Payments to community colleges that qualify for local strategic value funding shall be distributed with the November installment payment described in section 206.

(3) For purposes of subsection (2), the following categories of best practices reflect functional activities of community colleges that have strategic value to the local communities and regional economies:

(a) For Category A, economic development and business or industry partnerships, the following:
(i) The community college has active partnerships with local employers including hospitals and health care providers.

(ii) The community college provides customized on-site training for area companies, employees, or both.

(iii) The community college supports entrepreneurship through a small business assistance center or other training or consulting activities targeted toward small businesses.

(iv) The community college supports technological advancement through industry partnerships, incubation activities, or operation of a Michigan technical education center or other advanced technology center.

(v) The community college has active partnerships with local or regional workforce and economic development agencies.

(b) For Category B, educational partnerships, the following:

(i) The community college has active partnerships with regional high schools, intermediate school districts, and career-tech centers to provide instruction through dual enrollment, concurrent enrollment, direct credit, middle college, or academy programs.

(ii) The community college hosts, sponsors, or participates in enrichment programs for area K-12 students, such as college days, summer or after-school programming, or Science Olympiad.

(iii) The community college provides, supports, or participates in programming to promote successful transitions to college for traditional age students, including grant programs such as talent search, upward bound, or other activities to promote college readiness in area high schools and community centers.

(iv) The community college provides, supports, or participates in programming to promote successful transitions to college for new or reentering adult students, such as adult basic education, a high school equivalency test preparation program and testing, or recruiting, advising, or orientation activities specific to adults. As used in this subparagraph, "high school equivalency test preparation program" means that term as defined in section 4.

(v) The community college has active partnerships with regional 4-year colleges and universities to promote successful transfer, such as articulation, 2+2,

The state budget director shall determine if a community college has not satisfied this requirement. The state budget director may withhold payments for performance funding operational support payments until a community college is in compliance with this section.

Sec. 231. (1) Payments under section 201e for operational support payments for fiscal year 2021-2022 shall only be made to a public community college that certifies to the state budget director by the last business day of August that its board will not adopt an increase in tuition and fee rates for in-district students for the 2021-2022 academic year that is greater than 4.2%. As used in this subsection:

(a) "Fee" means any board-authorized fee that will be paid by more than 1/2 of all in-district students at least once during their enrollment at a public community college. A community college increasing a fee that applies to a specific subset of students or courses shall provide sufficient information to prove that the increase applied to that subset will
not cause the increase in the average amount of board-authorized total tuition and
fees paid by in-district students in the 2021-2022 academic year to exceed the limit
established in this section.

(b) "Tuition and fee rate" means the average of full-time rates paid by a
majority of students in each class, based on an unweighted average of the rates
authorized by the community college board and actually charged to students, deducting
any uniformly rebated or refunded amounts, for the 2 semesters with the highest
levels of full-time equated in-district enrollment during the academic year.

(2) The state budget director shall implement uniform reporting requirements
to ensure that a public community college receiving a payment under section 201e for
operational support payments has satisfied the tuition restraint requirements of this
section. The state budget director shall have the sole authority to determine if a
public community college has met the requirements of this section. Information
reported by a public community college to the state budget director under this
subsection shall also be reported to the house and senate appropriations
subcommittees on community colleges and the house and senate fiscal agencies.
